

# 「2026 動物抗藥性國際研討會:監測、管理與防控策略」議程

International Symposium on Antimicrobial Resistance in Animals:

Surveillance, Stewardship, and Control Strategies

主辦/ Organizer：農業部獸醫研究所

Veterinary Research Institute (VRI), Ministry of Agriculture

日期/Date：115 年 9 月 22 日(二) / 22 September, 2026

地點/Venue：農業部獸醫研究所綜合研究大樓國際會議廳/General Building Conference Room 101

| Time        | 發表題目 Presentations                                                                                                                                                                             | 主講人 Speaker                                                              |
|-------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------|
| 09:30-10:00 | 報到 Registration                                                                                                                                                                                |                                                                          |
| 10:00-10:20 | 開幕及團體照 Opening Remarks and Group Photo                                                                                                                                                         | 鄧明中所長<br><b>Dr. Ming-Chung Deng</b><br>Director General, VRI             |
| 10:20-11:10 | 主題一、從數據到決策：運用大數據與「防疫一體」方法對抗動物抗生素抗藥性<br>Topic 1: From Data to Decisions: Harnessing Big Data and One Health to Combat Antimicrobial Resistance in Animals.                                      | 張啟敬教授<br><b>Dr. Qijing Zhang</b><br>Iowa State University (ISU)          |
| 11:10-12:00 | 主題二、日本在 2023-2027 年抗生素抗藥性行動計畫下之防疫一體流行病學協同實踐<br>Topic 2: Japan's Collective Efforts in One Health Epidemiology along the AMR Action Plan 2023-2027                                              | 蒔田浩平教授<br><b>Dr. Kohei Makita</b><br>Rakuno Gakuen University (RGU)      |
| 12:00-13:00 | 午餐 Lunch                                                                                                                                                                                       |                                                                          |
| 13:00-13:50 | 主題三、(題目後補)<br>Topic 3: (To Be Determined)                                                                                                                                                      | <b>Dr. Francesca Martelli</b><br>Animal and Plant Health Agency (APHA)   |
| 13:50-14:40 | 主題四、從「防疫一體」的視角探討：臺灣伴侶動物與產食動物中由 ESBL 及 pAmpc 介導的抗生素抗藥性<br>Topic 4: ESBL-and pAmpc-Mediated Antimicrobial Resistance in Companion and Food-Producing Animals in Taiwan: A One Health Perspective | 葉光勝教授<br><b>Dr. Kuang-Sheng, Yeh</b><br>National Taiwan University (NTU) |
| 14:40-15:00 | 中場休息 Coffee Break                                                                                                                                                                              |                                                                          |

| Time        | 發表題目 Presentations                                                                                                             | 主講人 Speaker                                                                                         |
|-------------|--------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------|
| 15:00-16:00 | 主題五、英國於水產養殖動物抗生素抗藥性監測實施<br>Topic5: Implementation of Antimicrobial Resistance Surveillance in Farmed Aquatic Animals in the UK | <b>Dr. Athina Papadopoulou</b><br>Centre for Environment, Fisheries and Aquaculture Science (Cefas) |
| 16:00-16:50 | 主題六、認識水產養殖之抗生素使用與抗藥性<br>Topic 6: Understanding AMU and AMR in Aquaculture                                                      | <b>Dr. Sophie St-Hilaire</b><br>City University of Hong Kong (CityU)                                |
| 16:50-17:10 | 綜合討論 Discussion                                                                                                                | 鄧明中所長<br><b>Dr. Ming-Chung Deng</b><br>Director General, VRI                                        |
| 17:10-17:20 | 閉幕 Closing Remarks                                                                                                             | 鄧明中所長<br><b>Dr. Ming-Chung Deng</b><br>Director General, VRI                                        |
