We invited Dr. K. J. Yang, the CEO and founder from KURA Med Inc. to give a presentation in the department of Biochemical Science and Technology on December 2nd, 2020. The presentation title is "The application of artificial intelligence (AI) in telemedicine aspects". Dr. Yang received his PhD in Engineering at University of California at San Diego, USA. Dr. Yang has been worked in Qualcomm, USA until he had a serious illness. After recovery, he decided to start a business to connect biomedical engineering, IoT and big database together. The working team in KURA Med Inc. includes medical doctors, and engineers and KURA Med Inc. also incorporate with national and international medical centers or hospitals to develop telemedicine. So far, KURA Med Inc. successfully developed a APP to monitor the patients' heart rhythm for reducing death rate. In the end of his talk, Dr. Yang used himself to encourage our students "To believe ourselves, Be the boss of our own life, and Do meaningful things.
