abstract

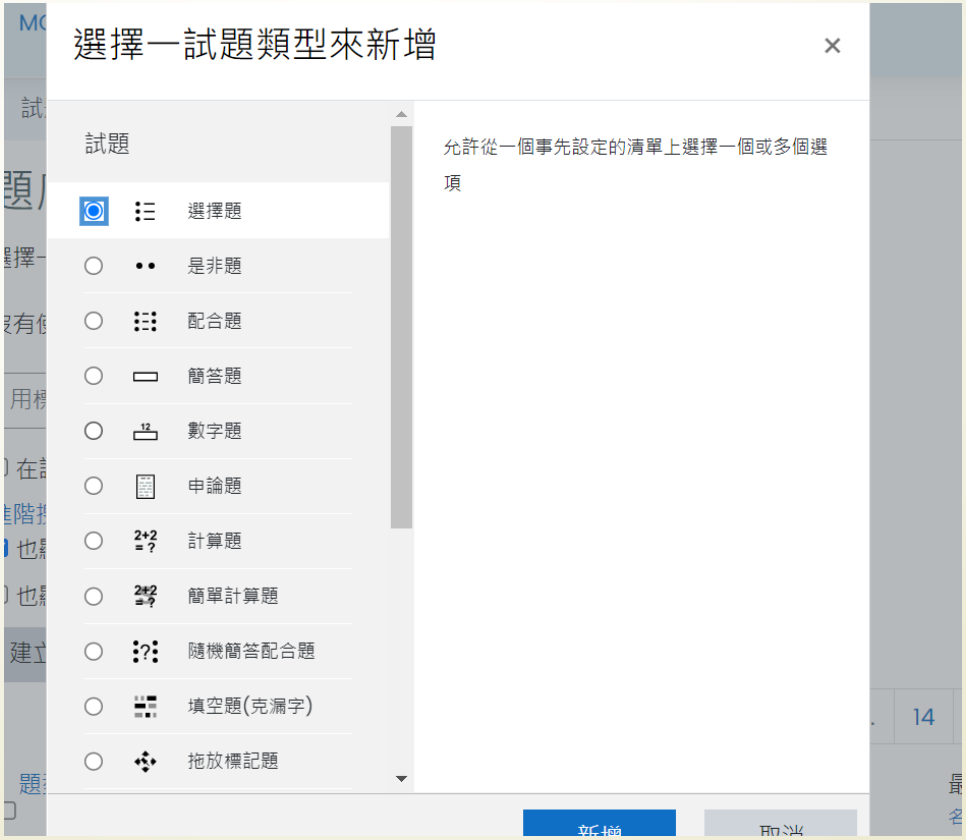
- 測驗題

建立題目

- 進入題庫後，選擇題庫類別後，點選"建立一新試題"

建立題目

- 選擇試題類型，再按下方"新增"鈕。

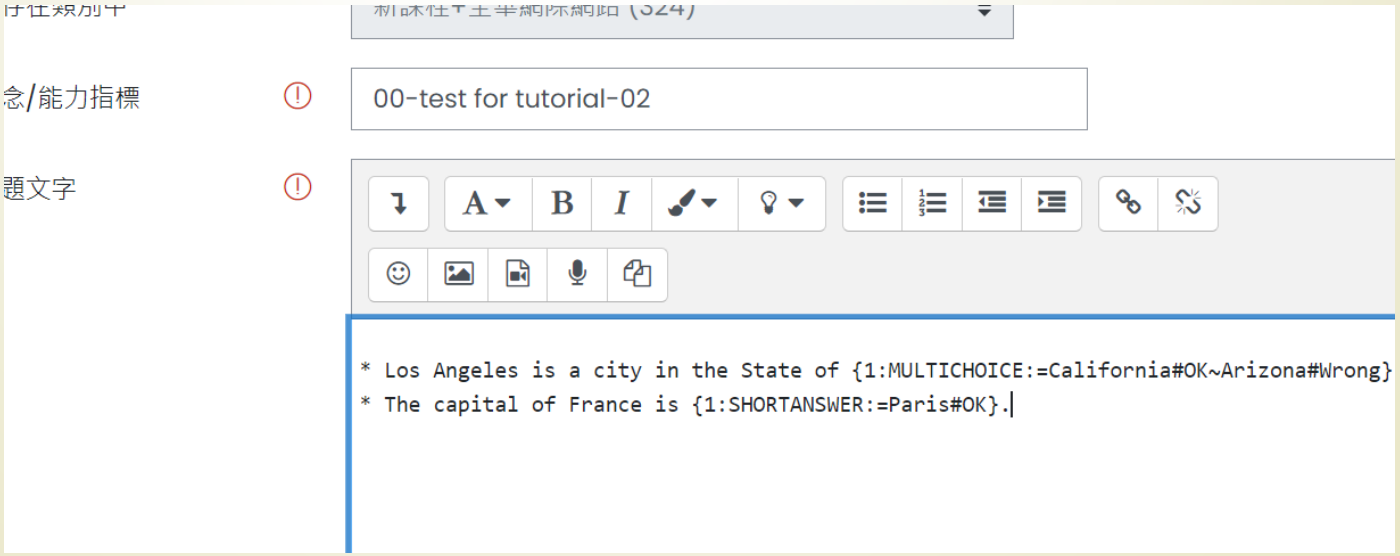


選擇題

- 測驗題種類很多，最簡單就是單選題
- 先填入"概念/能力指標"欄
- 填入"試題文字"(題目)
- 可選單選或複選
- 答案中的"選項1"填入選項資料
- 依次"選項2"、"選項3"、"選項4"等填入
- 選項若是答案者，在選項的下方成績處改為100%即可

填充題(克漏字)

- 試題類型若是填充題，題目與答案都要填入試題文字，答案處必須以代碼方式填入。
- 範例：
  * Los Angeles is a city in the State of {1:MULTICHOICE:=California#OK~Arizona#Wrong}
  * The capital of France is {1:SHORTANSWER:=Paris#OK}.



填充題(克漏字)

- 所有克漏字型態的試題項目(填充處)都是編碼在大括號內{ }
- 出現在左大括號跟冒號之間的數字{1: 是該項目的權重；假如所有的項目都是1，可以不需要指定，所以你可以這樣寫{:
- 在冒號後可以有幾種試題型態：MULTICHOICE，SHORTANSWER，NUMERICAL
- MULTICHOICE 及 SHORTANSWER的語法是相同的，唯一的不同在於對學生的顯示
- a correct answer is preceded with the equal sign = or a percentage (usually %100%)
- a wrong answer is preceded with nothing or a percentage (usually %0%)

填充題(克漏字)

- you can allocate some points between 0 and 100 to some answers, if you put the appropriate percentage
- all answers except the first one are separated from one another by the tilde ~ sign
- answers can be followed by an optional feedback message, preceded with the # sign; if there is no feedback message, the # sign can be present or absent, it does not matter
- in the SHORTANSWER type you may want to put a catch-all (wrong) answer in order to send a "wrong, try again" feedback; you can do this by inserting an asterisk * as the very last expected answer in your formula

填充題(克漏字)

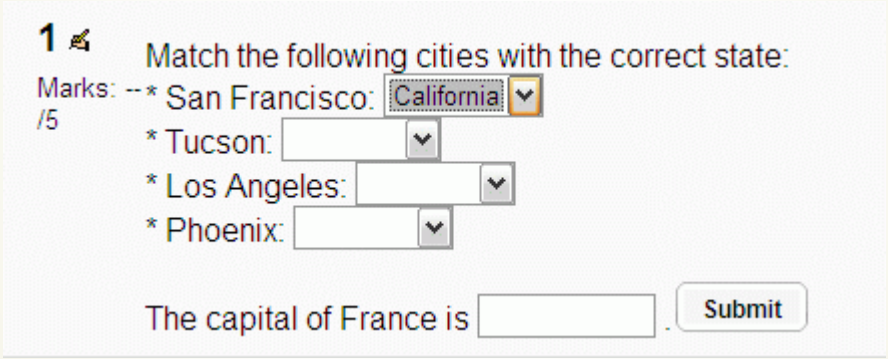
- unfortunately in MULTICHOICE MODE it is not possible to get the answers to be scrambled
- unfortunately in SHORTANSWER mode it is not possible to make the answers case-sensitive

填充題(克漏字)

- 另一個範例
- Match the following cities with the correct state:
- * San Francisco: {1:MULTICHOICE:=California#OK~Arizona#Wrong}
- * Tucson: {1:MULTICHOICE:California#Wrong~%100%Arizona#OK}
- * Los Angeles: {1:MULTICHOICE:=California#OK~Arizona#Wrong}
- * Phoenix: {1:MULTICHOICE:%0%California#Wrong~=Arizona#OK}
- The capital of France is {1:SHORTANSWER:=Paris#Congratulations!~%50%Marseille#No, that
- is the second largest city in France (after Paris).~*#Wrong answer. The capital of France
- is Paris, of course.}.

填充題(克漏字)

- 題目顯示



1
Marks: --/5
