ABOUT SET2026

Since its first edition in 2002, the SET conference series has provided an international platform for knowledge exchange and collaboration in sustainable energy technologies. SET2026 is organised by World Society of Sustainable Energy Technologies (WSSET), co-hosted by Universiti Teknologi MARA, and co-organised by Universiti Sains Malaysia, Universiti Kebangsaan Malaysia, Curtin University, Taylor's University, Sunway University and the University of Nottingham. The conference will bring together researchers, academics, policymakers and industry professionals to share advances in sustainable energy, renewable systems, energy storage, low-carbon buildings and sustainable urban development.

01 WORLD-CLASS SPEAKERS

Keynote & invited speakers from leading international institutions

02 PARALLEL TECHNICAL SESSIONS

Specialised sessions covering key research areas and emerging disciplines

03 NETWORKING & SOCIAL ACTIVITIES

Connect with researchers, industry partners and international delegates

04 COLLABORATION & FUNDING OPPORTUNITIES

Explore strategic partnerships, funding opportunities and insights from funded projects

KEY TOPICS

- AI Enhanced Energy Technologies and Renewable Systems
- Energy Storage and Conversion
- Low Carbon Building Design and Sustainable Architectural Practices
- Sustainable Urban Development, Environmental Stewardship and City Planning
- Policies and Management in Sustainable Energy

KEY DATES

Abstract Deadline: 30 June 2026
Registration Deadline: 31 July 2026

Submission of an abstract is sufficient to be considered for attendance and presentation at SET2026. Submission of a full paper is not required in order to attend or present at the conference. Authors who wish to publish in the SET2026 Conference Proceedings/Journal Publication may submit their full manuscript up to two weeks after the conference.

REGISTRATION & PUBLICATION

Low-rate registration fees with flexible options tailored to different publication goals. Choose the standard proceedings route, or upgrade for only an additional \$150 for the journal publication pathway, offering the opportunity for publication in special issues of selected indexed journals.
